SnapNames: the power of the market

SnapNames.com® pioneered the first commercially available technology for backordering registered domain names. Since then, SnapNames has engineered a dynamic and busy online marketplace, where hundreds of high-performing domain names are bought and sold daily.

SnapNames has brought the convenience of online shopping to the domain name aftermarket. SnapNames brings domain name buyers and sellers together with a variety of market options, including:

- Daily auctions: a fully automated daily listing of tens of thousands of registered domain names available for sale.
- Monthly Showcase Auctions: a special online auction of handpicked domain names with excellent performance potential.
- Live Auction Events: held in cities around the country, buyers and sellers attend in person. Online, telephone and proxy bidding is also enabled, with live streaming video.

SnapNames is the Web’s resale marketplace of choice. Hundreds of auctions are closed each day at prices ranging from a few dollars to tens of thousands.

And SnapNames has exclusive partner relationships with the world’s top registrars. That gives SnapNames users a real marketplace edge.
